

## THOUGHT FOR THE WEEK: HOPE

In the darkness of the night there is always a faint light somewhere. In the most desperate of situations there always exists hope. This is a fundamental teaching of all of the main religions of the world. It is the basis of our human lives and a belief that has inspired generations of people to live out their lives courageously and with dignity.

Possessing hope allows us to live in a positive and optimistic way. It is a special word with a very special meaning. This week marks the national memorial day of the Holocaust. Special services will take place throughout Wales. As part of these services we reflect on the suffering and terrible deeds of the Holocaust; but we also look forward to the future with hope that we may all play our part in making this world a better place.
