

STACK SQUARE VIRTUAL REALITY TOUR

- 1) write down TWO places from which people in 1842 could collect drinking water:

- 2) As there was no fridge, how could the family store meat and prevent it from going rotten?

- 3) What were the THREE most important foods for poor families at this time?

- 4) Give TWO reasons why small houses like this often had too many people living in them:

- 5) What was the main type of heating in this room?

- 6) How could the family see after dark?

- 7) Suggest TWO reasons why industrial workers did not take baths very often:

- 8) Name ONE type of food that was usually cooked over the kitchen range:

- 9) Two of the most popular drinks at this time were tea and beer. Why did people try to avoid drinking water?

- 10) Suggest THREE reasons why housework was such hard work in 1842:
